SOLUTIONS  
PROVIDER**

## **New Dies Stock List**

**December 2017**

CFE supply ring and flat Dies from hole sizes 1.5 to 30mm, straight, well and taper hole inlets. Our Dies are made from X46 chromium steel and alloy steel. All Dies are gundrilled, vacuum hardened and run in for easy start up. We source our Dies from leading suppliers in Global Die production.

CFE is highly experienced in new die specification ensuring that its customers consistently obtain optimal product quality and die life.
