

CPM Europe. **Solutions to maximize your profitability**

**Wear parts and
spare parts for
Pellet Mills**

**GLOBAL PARTNER
SINCE 1883**

CPM Europe. Your Partner in Productivity

How to maximize your profitability with CPM?

We offer a lot of attention to the following matters:

- The pellet quality you want to produce
- The raw materials you apply
- The expansion of your pellets allowing us to drill the die holes adequately

Genuine CPM Dies and Rollers

- Produced with attention for your requirements

We are advising you:

- Which roller surface finish to apply for the best pelleting efficiencies in relation to your raw materials

What is the difference of a CPM Pellet Mill?

The die is directly connected with the main motor by a single helical gear reduction set:

- No production stops due to a temporarily Pellet Mill overload
- Very efficient transfer of energy
- Compact design
- Closed loop oil lubrication system applying food grade lubricants
- Typical service life oil seals: 3 years
- Our gears are warranted for life

We maximize your profitability in the following ways:

- Assisting you to produce the best pellet qualities
- Which allows you to produce the highest capacities with your CPM equipment
- Training your personnel to become experts working with our equipment
- Supplying you with wear parts and spare parts which provide a very long service life
- Reducing your energy consumption due to the high efficient CPM gear reduction

Extended service life by attention for your requirements and concept efficiency
